

# The Perfect System for

# Health Care Professionals

MAX-OR: Operating Room Scheduling Software includes the following modules and features:

- Schedules multiple operating rooms
- Daily, weekly, monthly & multi-room scheduling
- Can assign staff to scheduled surgeries
- Supports multiple reasons (surgeries) per booking
- Manages surgeons schedules with powerful block scheduling functionality
- Built in letters and reports
- Staff scheduling
- User defined requirements for surgical procedures
- Inventory control built in (supports bar codes)
- Surgeons preferences
- Post Operative Reporting
- Audio reporting System
- Forms & Template Management System

I get my surgery schedule emailed to my Blackberry with daily and weekly reports. Now you're talking!

It saves on administrative time and paperwork is reduced. Operating room utilization has increased. Scheduling has never been more efficient and the staff are not stressed out. Good job Max.
